4th Annual Make a Difference Day Cleanup
Saturday, October 25, 2014

Our parks and public spaces are becoming the ashtrays for thousands of discarded cigarette butts. The filters are made of plastic, and can persist in the environment for years. Cigarette butts also contain toxic chemicals that wash into our waterways.

Join Clark County Public Works and the City of Vancouver for the Make a Difference Day Cleanup as we remove cigarette butts and other litter from our parks! Lunch courtesy of Blind Onion will be provided at 12:30 pm.
