#1 BROWN AND SONS

An apple a day keeps the salmon at play.

Salmon-Safe certified apple growers help keep our rivers clean for native salmon to thrive. By restoring habitat, creating riparian zones, returning clean water to streams and becoming less dependant on pesticides they are helping salmon return to the Northwest.

#2 WILLIAMS HUDSON BAY FARM

Photo by PCC Farmland Trust

An aerial photograph of a vast vineyard at sunset. The rows of grapevines stretch across the landscape, leading towards a large body of water in the distance. The sky is a gradient of blue and orange, with the sun low on the horizon. A large, dark blue star with a white outline is superimposed over the center of the image. A red banner with white text is positioned horizontally across the middle of the star.
