

Free Teacher Workshop this Summer!

OUTDOOR SCIENCE EDUCATION ON SCHOOL GROUNDS

Join the **Lower Columbia Estuary Partnership's** team of experienced outdoor educators for a day of learning how to make outdoor education a regular part of your school year curriculum.

Why incorporate outdoor learning?
Outdoor Education promotes active learning through direct personal experience and is a fun and exciting way for students to demonstrate critical thinking in a collaborative environment.

Workshop topics include:

- Using school grounds for inquiry-based science activities.
- Ready-made science lessons and activities that integrate Common Core State Standards and NGSS.
- Best practices for leading successful and safe outdoor learning activities.
- Resources available for loan from the Estuary Partnership.
- How to overcome real or perceived barriers to bringing the learning outdoors.
- Peer learning and celebrating what you do already!

August 10th, 2017

East Multnomah Soil and Water
Conservation District

Portland, Oregon

9:00 am – 3:00 pm

Up to 6 PDU's

This workshop is designed for Oregon teachers, grades K-6th
