

Floodplain Disturbance at the 'Site' Scale

Sites are ranked on a scale of 0 (least disturbed) to 1 (most disturbed)

Click on a polygon in the map to see the actual Site score, in the 'NRM_SCR' field, and the score of the Management Area that the site falls in, in the 'MA_SCR' field.

low disturbance score (0 - 0.333)

moderate disturbance score (0.333 - 0.667)

high disturbance score (0.667 - 1.0)
